Computer systems  
engineering student

## Experience

### Junior developer

- Solid knowledge of data structures and OOP.
- Regularly practice solving algorithmic challenges on websites like HackerRank.
- I create the backend with Python, Django, and Django Rest Framework for a web project of dynamic questionnaires.
- I created the frontend with JavaScript and React, controlling the state with Redux for a web project of dynamic questionnaires.
- Created a CRUD using Java with Maven and MariaDB for a robotics school named Robotekp to manage student's courses, enrollments, and payments.
- Worked with Kali Linux to learn about security information, so I have enough knowledge about the fundamentals of this operating system.

### Teacher in a robotic's school named Robotekp (1.5 years)

- I designed theoretical and practical classes with a didactic approach to learn while having fun.
- I taught the fundamentals of Python to kids, creating smaller projects using different types of libraries like Tkinter, Turtle, gTTS, etc.

### Head chef in Sinaloa Restaurant (3 years)

- Coordinate and collaborate with three cooks to prepare the dishes efficiently.
- Ensured consistency and excellence in dish quality and presentation.
- Managed daily production.
- Reviewed inventory and placed orders for seafood, vegetables, and supplies.
- Real-time problem solution, such as prescription adjustments, supply shortages and staff readjustment in case of shortages.

## Programming Languages

- Python
- Java
- javascript

## languages

- English B1
- Spanish Native
